EDUCATION

UNIVERSIDADE DE BRASÍLIA

Brasília, DF, Brazil

Law School

2013 – 2019

- I attended one of the most prestigious Brazilian Federal Universities for my Law formation, having my higher education completely paid for by the State. The acceptance rate for this course in particular is one in fifty, only taking second place to medicine.
- Passed my bar exam before being done with my studies.
- Presented my conclusion thesis on Social Networks, their effects on society, and plausible regulatory measures for the problem.

HARVARDX

Online

CS50x: Introduction to Computer Science

2022

CS50w: Web Programming with Python and JavaScript

2022

EXPERIENCE

FAMILY LAW FIRM

Brasília

Lawyer

2019 – 2022

MOOLKIT

Rio de Janeiro (remote)

Junior Full-Stack Developer

Dec 2022 - Mar 2023

- Created an automated tax invoice issuing system, responsible for processing sales received via webhook from various sales platforms.
- Designed all SQL queries used by the company to generate business health reports for users.
- Designed most of the charts that made use of those SQL queries.
- Worked with a team of 3 and eventually got merged into a bigger company.
- Stack used: Ruby on Rails, Typescript, React, NextJs, Postgres

WECONT: ZUPPY

Rio de Janeiro (remote)

Junior Full-Stack Developer

Mar - August 2023

- Integrated our automatic tax invoice issuing system to over 10 online sales processing platforms.
- Created an error logging system and integrated it with our Slack server, notifying the product team of time sensitive issues with our users' services.
- Worked with non-tech employees to improve their understanding of the system and assist them with technical tasks, such as SQL queries.
- Stack used: Typescript, React, tRPC, Tailwind, MySQL.

FREELANCING

London (remote)

Junior Full-Stack Developer

Apr 2023 - Present

- Under supervision of my mentor, I took ownership of and implemented a booking page front-end project for 2 Oxford-based sister schools using a double domain system. Integrated with Stripe, Google Tag Manager, Zapier and other smaller services.
- Did multiple code maintenance projects for clients all over Europe.
- Worked with clients, communicating technical concepts and guiding them into the best solutions I could envision for their requests.

PERSONAL INFORMATION

- I like playing MMORPGs at a high level and have extensive experience leading, coordinating and organizing the efforts of large groups of people over the years.
