- Bootstrap
- Material UI

EDUCATION

LAW SCHOOL

Universidade de Brasília
2013 - 2019

CS50X CERTIFICATE

Harvard
2022

CS50WEB CERTIFICATE

Harvard
2022

PROFILE

I am a highly enthusiastic web developer transitioning from my old career as a lawyer. I strive to make efficient and useful applications. My main skills are in Python, Django, Ruby, Ruby on Rails, Javascript and React.

PROJECTS

DELICIOUS PLAN

A meal planner web app.

- Website design using React and Material UI.
- Designed a RESTful API using Python and Django.
- Built optimized modeling to minimize API calls and save money, by reutilizing information already seen. While also implementing ways for users to create their own recipes using a community-driven catalog of ingredients.

MORE PROJECTS IN MY PORTFOLIO

EXPERIENCE

LAWYER

Self-Employed
2019-2022

JUNIOR DEVELOPER

Moolkit
2023 - Present

- Created an automated tax invoice issuing system.
- Implemented system to invite new users to the platform through email.
- Designed SQL queries to generate business health reports for users.
